

# **The Structure of a Classic VITA Shade Guide is by Hue and Color...**

## **Hue – the dominant color of the tooth**

**A = brown, B = yellow, C = gray, D = reddish grey**

## **Chroma – the saturation of tooth color**

**A1-A4, B1-B4, C1-C4, D2-D4**

## **\*Value – the lightness or darkness of the tooth**

**This is the most important parameter of shading!**
